

We provide you with top quality technical analysis for your Licensing business. We have developed hundreds of claim-charts and defend counter arguments for major licensing entities worldwide. We bring in more than 15 years of experience and developed methods and tools to satisfy your unique requirements for tomorrow's Licensing activities.

# TIPAG - Patent Experts

We detect patent infringement on the target samples products of your choice. We **propose and arrange sample acquisition** and prepare the test bench.

Our highly expertized Team of Patent Engineers has spent their entire career with **Licensing and infringement analysis**. We are ready to support you without any training or guidance needed.

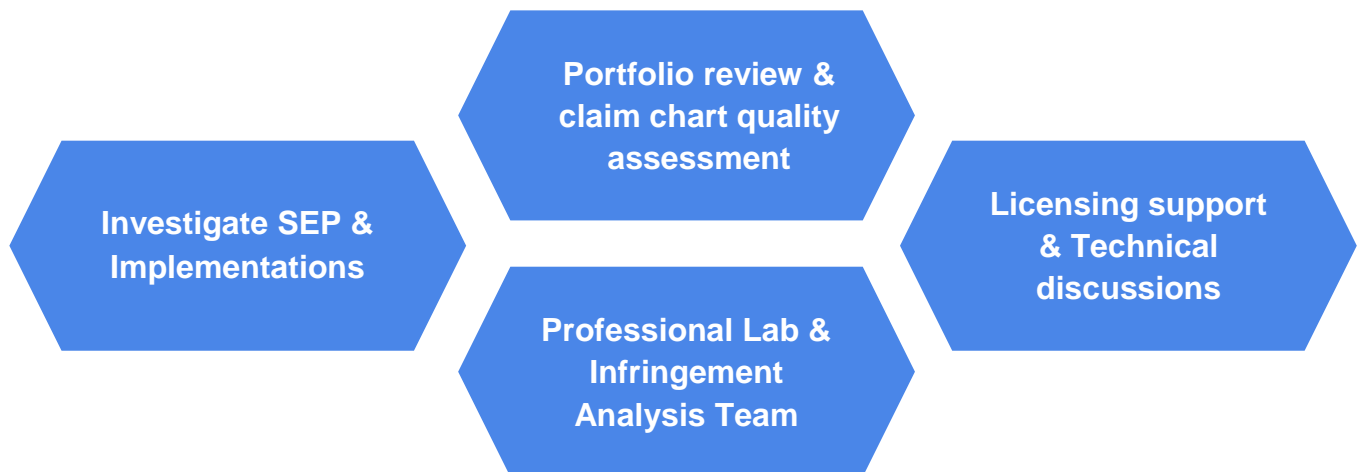

We provide you with **portfolio mining and claim chart quality reviews** in order to evaluate a portfolio of interest. We identify the most valuable assets and **investigate the targets by reverse-engineering**, testing of implementations and researching in industry standards to find the use case on the claim level.

We have specialized ourselves in **consumer electronics** such as television, mobile phones, tablets and set-top-boxes, as well as wearables, IoT, router and navigation systems.

We are able to investigate any level of complexity from the user interface to integrated circuit level. We have developed tools for capturing and analysis of signals exchanged between communication devices such as **WiFi, BT, ATSC and DVB/ETSI** standard compliant devices.

We maintain a complete **Test Lab infrastructure for professional electrical, mechanical and optical analyses**. Digital oscilloscopes, Logic Analyzer, Network capturing tools and high power microscopes are available in our Lab. We further **provide a large number of recent samples** such as tablets, mobile phones, international TV's (DE, US, KR), routers and more.

The quality of our **claim charts is outstanding and well recognized** among the leading licensing entities, service providers and manufacturers worldwide.

We offer a customized service package tailored to your needs, so that you can keep the focus on your daily business while being assured we are taking care of your technical IP matters. We are looking forward to getting in touch with you and that we can make you a non-binding offering. Please contact us via [www.tipag.ch](http://www.tipag.ch) in order to get in touch and we will be happy to provide you with further information and insights as needed.
